DESIGN SCHEME · V1.0

Quiet rooms, *green light.*

A mostly white scheme. Green carries the type and the actions. Gold is used sparingly, for rules, marks and the occasional italic on green.

01

White does the work

Give layouts generous space. Separate areas with whitespace before reaching for a fill.

02

One voice in green

Logo green is the only colour used for type and actions. Deep is for pressed states and inverse panels.

03

Gold as the flame

Like the torch in the mark: small and bright. Use it for rules, dots and underlines, under 3% of any screen.

VISIT

Open six days a week

Tue–Sun, 10:00–18:00. Late opening Thursdays until 21:00.

Plan a visit →

INVERSE PANEL

Evening hours, *by lamplight.*

Use at most one per page, for a footer or a single feature. On Deep, logo gold reads at 7.5:1 and can be used for text.

Book Thursday | Details

Usage

Do

Set headlines in serif, with one italic phrase.

Pair a gold rule with the main headline only.

Use Mist for image placeholders, panels and fields.

Never set logo gold as text on white; use Gold ink.

Don't

Fill buttons or large areas with gold.

Set body copy or UI labels in the serif.

Add greens outside this scale, or use pure black.

Use shadows, gradients or radii above 3px (pills excepted).
